SENA FOR SHARK INTERCOM READY

LEXAN™ STRUCTURE

MICRO LOCK BUCKLE SYSTEM

BOUNDLESS VERSATILITY

THE PERFECT ALLIANCE OF COMFORT AND SAFETY

Innovative and resolutely avant-garde, OXO revolutionizes comfort and safety standards. Featuring an ingenious and ergonomic chin guard system, it allows a smooth and instant transition between jet and full mode with a simple movement of the hand. Offering full face protection, it strikes the perfect balance between safety and flexibility. It is equipped with a "P/J Lock" button that locks the chin guard in jet mode, in accordance with standard 22.06. This feature allows you to secure the chin guard in the open position, giving you maximum versatility on your rides.

FLUID AND CAPTIVATING DESIGN

A revelation in the world of design and comfort. You'll be captivated by its assertive style and unparalleled comfort. Get ready to take your experience to the next level. Designed for those who aspire to merge efficiency, style and comfort.

THE STRENGTH OF ITS STRUCTURE

Discover the power of LEXAN™ high-impact polycarbonate injection, a high-quality material that promises optimal and constant mechanical properties from -10 to +50°C:

- Abrasion and compression resistance
- Excellent shock absorption
- Resistance to extreme temperature variations, making it ideal for use in varied weather conditions

Complemented by our multi-density EPS available in 2 shell sizes and 6 liner sizes, it guarantees optimal damping on each impact zone.

PERFORMANCE AND PRECISION

Equipped with two air inlets and two air outlets, guaranteeing optimal air circulation. The airflow generated creates a controlled vortex, keeping the rider's head cool and comfortable, even on the longest and most demanding rides. Its design is not just a matter of aesthetics. OXO reduces air resistance, providing an unparalleled experience of comfort whatever your riding style.

BOUNDLESS VERSATILITY

ADJUSTABLE VISOR, COMFORT AT YOUR FINGERTIPS

Discover, experience, while maintaining absolute control. The visor, with anti-scratch treatment, offers a panoramic field of view.

With two open options, full or partial, enjoy the freedom to ride with the visor in the "air stream" position for a personalized driving experience.

It ensures a waterproofing and a custom fit thanks to its two sizes, for small and large shells.

Pinlock 70 included.

The UV380 sun visor is anti-scratch and anti-fog treated, guaranteeing clear and unobstructed vision. Its intuitive side mechanism allows easy and quick adjustment ensuring optimal protection.

VZ390S/VZ390L (OXO)

The VZ390 offers panoramic vision for total control. With full or partial opening options, it offers personalized comfort. Available in two sizes, it ensures a tight seal and a perfect fit. Its side mechanism allows easy adjustment for optimal protection.

- 2 visor sizes (1 per shell size)
- Central locking/unlocking
- Max vision integrated Pinlock housing
- Adjustable Pinlock tension
- Anti-scratch treatment
- Quick disassembly without tools
- Iridium versions blue/rainbow/red/gold/silver "Racing use only"
- TE35 light tinted approved version available

MICROPEACH

BIRDEYES ECO CIRCLE

BOUNDLESS VERSATILITY

BEST FIT BY SHARK

Thanks to a 3D scanning campaign involving a wide range of users, we were able to establish the most suitable base for your head shape.

Our exceptional second skin fit combines 2 high-tech textiles to ensure:

- premium quality finishes
- semi-firm foams for exemplary support in use
- remarkable weatherproofing and seal
- a true feeling of freedom when riding

Cheek pads available in different thicknesses:
25-30-35-40-45 mm

Machine washable interior.

Quick and intuitive removal of cheek pads and liner
removable wind deflector device

A reflective print is positioned on the neck
protection, improving visibility while riding.

BIRDEYES ECO CIRCLE

- «Eco Circle» recycled fibres made from used polyester
- From an innovative recycling technology process: "Eco Circle chemical recycling process"
- similar properties to traditional polyester while having a lower environmental impact
- AEGIS® treatment: anti-bacterial and anti-odour.

MICROPEACH

- Textile with mechanical elasticity
- «Soft touch» finish: lightly brushed fabric for a softer feel on the skin.

TIPS FROM PROS

EASE OF MAINTENANCE:

Interior textiles (cheek pads and liner) are easily removable and machine washable at 30°C.

HOW TO MEASURE YOUR SKULL CIRCUMFERENCE:

To ensure that your helmet protects you effectively, while remaining comfortable, choose the right size. You should be firmly held without feeling pain. The head circumference measurement is done by placing the tape measure around the widest part of your head, at the halfway point of the forehead and above the eyebrows.

XS AU XXL

XS : 53-54cm / S : 55-56 cm / M : 57-58cm
L : 59-60cm / XL : 61-62cm / XXL : 63-64cm

Number of shell sizes: 2
1660 gr (size M +/- 50 gr)
